

## ENVIRONMENTAL POLICY

The company Savvas Chaliampalias & Co "CHROMODOMI" has as its object of work the production and marketing of paints and has recognized all interested parties and their needs. For each interested party it has set a goal to satisfy its requirements. More specifically:

- Environment - The company is committed to protecting the environment, using natural resources (raw materials and energy) in the most efficient and technically feasible way
- State - To comply with and meet all requirements of relevant environmental legislation
- National, international and local environmental agencies - To be in a channel of communication in order to keep abreast of developments and news relating to the environment
- Suppliers - To work in harmony with the company
- Employees of the company - to be satisfied with the working environment and to ensure that the company meets the intellectual needs of its employees
- Contractors providing services to the company - Cooperate harmoniously with the company and be aware of its environmental policy
- Certification bodies - Be satisfied with the cooperation with the company

This requires:

- sustained interest and cooperation of management and employees
- proper selection of raw materials and goods
- selection of consistent suppliers and other partners

And it is achieved by:

- compliance with the requirements of the ISO 14001: 2015 standard
- prevention of errors (therefore continuous work control)
- continuous effort to improve behaviour, communication, work
- full compliance with current Greek and European legislation
- establishment of environmental goals and objectives and environmental programmes, which are continuously reviewed, seeking to further improve the company's performance in environmental matters
- has the appropriate means to apply the best available techniques, as far as practicable
- ensures that staff are aware of their responsibilities in accordance with the registered Environmental Management System and are aware of environmental protection issues.
